Project: Cryptid Website

I'd like to make a multi-page website with links along the top. There is plenty of content to build out individual pages. Each page will have an introduction to the cryptid, as well as artist's renderings and personal accounts (not mine)

- Homepage/Introduction Page
- Eberhart's Classification
- Mothman
- Bigfoot
- Flatwoods Monster
- Loch Ness Monster
- Chupacabra
- (maybe more?)
